DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose the recited limitation "each magnet unit of the first and the at least two peripheral magnet units includes at least one magnet, and in adjacent magnetic units like magnetic poles of the at least one magnet are oriented in opposite directions" (claims 1 and 7). The remaining claims 2-6 and 8-17 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
